# Executive Summary

Women Helping Women (WHW) for a Sustainable Tomorrow (WHW) is a not-for-profit organization dedicated to the empowerment and advancement of women from all walks of life. WHW was founded with a clear mission to create an inclusive ecosystem that fosters the self-sufficiency of women and girls through education, employment, economic development, and advocacy services.

In 2018 I got a mandate to go and restore the lost dignity of womanhood. WHW was established in 2022 with 5 members. Today, WHW has over 8000 members. We desire to make an impact in the lives of women and girls all over the world. WHW seeks to ignite a global movement that empowers women through education, entrepreneurship, and skill acquisition, thereby advancing their economic and gender integrity. We are dedicated to creating a sustainable future where women and girls thrive and contribute significantly to society.

At WHW we help women advance their status, promote unity among women, and we work to ensure that women and girls realize and achieve their life's purpose. Our mission extends to supporting businesses, nurturing strong relationships, and encouraging women to take their rightful place within their homes and communities. We believe in the recognition of women as nation builders, ensuring equal opportunities and access in all aspects of life.

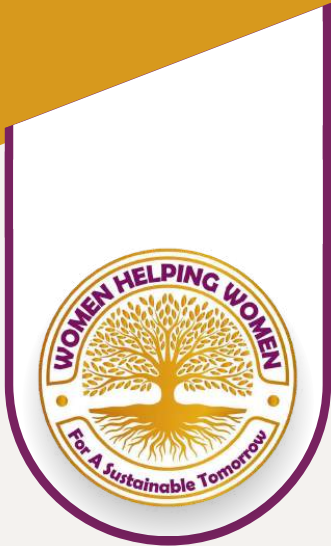

Since our inception in 2022 we have implemented numerous interventions across the world and reached over 1000 women and girls and their families. We currently have 35 chapters in 17 countries all over the world with members from diverse locations. Our goal is to ensure that WHW is in every continent making impact in the lives of women and girls everywhere.

We invite you to join us in our mission to build a better tomorrow, one where women and girls have the opportunities and resources they need to make maximum contribution to the society.

# Key Past Programs

Since 2022, WHW has been conducting impactful events designed with a focus on the empowerment of women and girls worldwide. Highlighted below are key initiatives and events that have contributed to WHW's mission of fostering gender equality and women's self-sufficiency. Our events are held across different countries and showcase our global reach and commitment to women's empowerment.

## December 2022 Canada: Women Empowerment Dinner

This program, held in Canada and was dedicated to supporting abused women and single mothers, addressing their unique challenges, and offering them avenues for empowerment and self-sufficiency.

## February 2023 Nigeria: Training for Women

Women Help Women empowered over 200 women in Edo state by providing skills training, startup capital, and lectures on sustainability. Additionally, the organization has assisted more than 100 women in various African countries to start successful businesses and achieve sustainability.

## March 2023 Virtual: Generation Equality Gala

The Generation Equality Gala focused on gender equality and inspiring innovation among women to drive sustainable development. This gala underscored the organization's commitment to advancing women's rights on a global scale.

# Key Past Programs

## June 2023 Online: Leadership Development Training

The online leadership development training program sought to alleviate the unique pressures and challenges that women face in leadership roles. By addressing these issues, the organization aimed to promote women's leadership skills, benefiting not only individual participants but also the broader community and organization.

## July 2023 Online: The Generation Equality Pyramid of Genderpreneur Sustainable Initiative

This event was part of the Generation Equality initiative and emphasized the organization's commitment to gender equality and sustainable entrepreneurship. The "Pyramid of Genderpreneur" approach aimed to foster economic empowerment among women in Africa.

# Our Impact

Our impact speaks volumes. With over 10 leadership trainings and empowerment events, we've touched the lives of more than 1000 families, providing financial assistance to 220. Our commitment to excellence has even earned us the prestigious United States Presidential Lifetime Achievement Award.
